### Software Feature Description :

**Order Processing**—Create and enter customer info, select products, confirm pricing and generate an order.

**PO Generation**—Allows functionality to create a Purchase Order.

**Work Order Generation**—Allows functionality to create a Work Order.

**Production Label Generation**—Creates assembly labels for Vertical, Horizontal, Pleated, and Cellular blind types.

**Mail Merge**— Merges outgoing mail. Solatech customer info can be placed into Excel or Word to create sheets of mailing labels or other documents.

**Batch Processing**—Used to process or print multiple orders at a time and to generate Invoices, PO's, Order Summaries, Packing Lists, Installer Forms, Work Orders, Production Labels, etc.

**Product Designer**—Software tool used to add or change Products, styles, options, pricing, and more from your own lines into Solatech, or to modify those currently in the software. Highly beneficial tool for manufacturers, fabricators, and wholesalers.

**4 Private-Line Products**—Included are up to 4 of your products (i.e. 2" wood, 2" faux, verticals, cornice) built into the software for you by Solatech.. Additional custom products can be purchased separately or built in yourself using Product Designer.

**Annual Licensing Fee**—Yearly billed amount that reflects the number of licenses or users using the Solatech Software within a company. This amount includes technical support calls, on-line training sessions, free software upgrades, and product maintenance.
