

Standard Fabrication Software

The **Standard Fabrication Software** is the fast, efficient automation program for order management and label production. It supports up to **3 users** with the option to add on additional features such as *Retail Products*, and *Exporting to QuickBooks, Peachtree, or Mas90*. For even more flexibility and management control, upgrading to the Professional Fabrication Software is possible.

- ▲ **Order Processing and PO Generation**
- ▲ **Work Order Generation**
- ▲ **Production Label Generation**
- ▲ **2 Private Line Products supplied**
- ▲ **Single User License***

* price includes annual licensing for a single user. Additional users can be added (up to 3), increasing annual licensing fees.

Software Feature Description:

Order Processing—Create and enter customer info, select products, confirm pricing and generate orders.

Work Order Generation—Allows functionality to create a Work Order.

PO Generation—Allows functionality to create a Purchase Order.

Production Label Generation—Creates assembly labels for Vertical, Horizontal, Pleated, and Cellular blind types.

2 Private-Line Products—Included are up to 2 of your products (i.e. 2" Wood, Verticals) built into the software for you by Solatech. Additional custom products can be purchased separately or built in yourself using Product Designer.
